OR
75 x 16mm Rectangle Tubing
1.6mm Thick

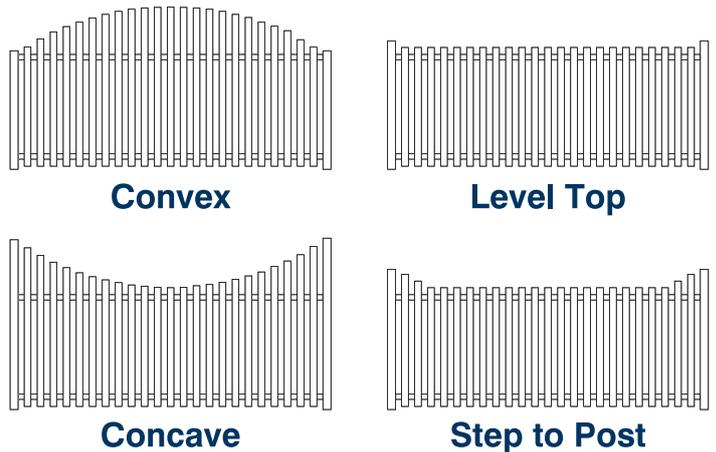

Horizontal Rails: 40 x 40mm Square Tubing
1.6mm Thick

Posts: 65 x 65 Square Tubing

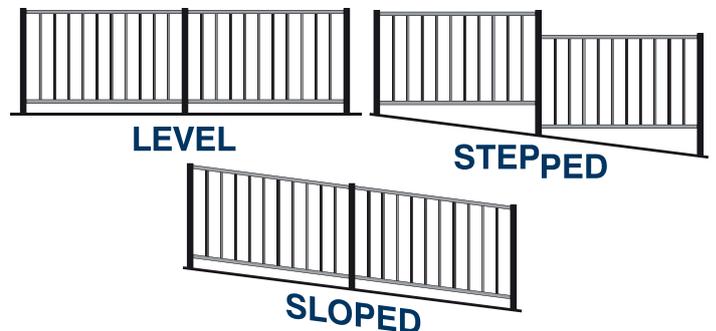

Panel Length: 2400mm / 3000mm
Punched Through The Rail or Face Welded

for marine environments is designed to withstand the toughest conditions, never needing paintbrush application, just a periodical wash down to maintain finish.

Won't rot, warp, or deteriorate as timber picket fences can. Pickets can either be face welded or punched through the rail for a stronger, stylish construction if ever hit or vandalised. A traditional look that lasts.

Landscape Designs

Guarantee

Our products are guaranteed for 12 months from date of delivery against faulty workmanship, materials or installation. If any defect does occur we shall rectify by either repair or replacement which ever seems necessary. The guarantee is only valid if the material is suited to the environment where it is installed.
